

Complete Accounting & ERP in one, affordable solution

Palladium Accounting is a complete business enablement solution that combines accounting with comprehensive ERP in one software suite.

THE PALLADIUM PROMISE

Software that just records data has no place in a modern business. Palladium is an enterprise development tool that promises growth through three key areas.

Improving Margins

Increasing Turnover

Enhancing Operational
Efficiencies

DESIGNED FOR BUSINESS

Designed to enhance businesses, **Palladium offers customers three products**, each one tailored to cater to businesses with different needs.

PALLADIUM INDIVIDUAL

Palladium Individual, offers full functionality for a **single user for free**. Features include the invoicing of service items and general ledger recovery accounts, with customers, vendors and a full general ledger.

Palladium Individual is **perfect for single-user, service based start-up businesses**.

PALLADIUM BUSINESS

Palladium Business is aimed at smaller SMEs with up to 10 users. This option includes profit centres, light manufacturing in the form of assembly, multi-warehousing and much more, in addition to the features included in Palladium Individual. Palladium Business is **perfect for small businesses that don't require complex manufacturing management, project management or point of sale (POS) integration**.

PALLADIUM ENTERPRISE

Palladium Enterprise is a **full Accounting & ERP solution that can accommodate an unlimited number of users**. Features include all the functionality of Palladium Business, as well as: projects, PoS, distribution, pick tickets, manufacturing, multi-currency, PO approvals, freehand quotes and much more.
