## 👤 PROFILE

Talented self-taught JavaScript developer with robust problem-solving skills and proven experience in creating and bring into life beautiful products that people can engage with and a professional with expertise in robust programming languages such as [React.js], [Node.js], [Express.js], [HTML], [CSS], [JavaScript] and [PHP]. Deliver high-quality designs based on client specifications. Manage projects smoothly to accomplish customer objectives.

## 📁 EMPLOYMENT HISTORY

### Front End Software Developer at Linton Beauty World, Nairobi

September 2019 — September 2020

- Completed assigned projects and tasks using standardized processes within timeline and requirements outlined by team leads.
- Learned new technologies and adopted new tools quickly to maximize performance and contributions.
- Developed and deployed successful e-commerce strategies into clients' websites.
- Matched content to customer specifications through skilled design, writing, and editing.
- Refined and finalized designs by closely collaborating with a senior designer on design implementation.
- Adapted websites to match changing user preferences and client demands with regular updates.

### Senior Full Stack JavaScript Developer at Capture Education UK, United Kingdom

October 2020 — Present

- Developed, designed, tested, and debugged applications from foundational level up to full production levels.
- Enhanced applications and improved performance through testing and validations against requirements and performance standards.
- Worked effectively within Agile software development life cycle, including sprint planning, sprints, and sprint review.
- Designed and implemented core architecture and capabilities for software from prototype to operational applications.
- Performed analysis, design, coding, testing, implementation, and maintenance of software solutions.
- Analyzed software requirements and provided solutions.

### Senior Full Stack Web Developer at Brooklyn Apparel Decorators, 10160 6th Ave N, Minneapolis, MN 55441,

April 2020 — January 2021

- Completed professional Word Press development work leveraging JavaScript, HTML, and CSS expertise.
- Designed and implemented new features and functionality for Word Press themes.
- Created high-performing and user-friendly interfaces for targeted needs.
- Achieved code quality standards through testing, debugging, and corrective actions.
- Formulated creative designs and managed development lifecycle to achieve full deployment.
- Adapted websites to match changing user preferences and client demands with regular updates.
- Managed back-end requirements such as renewing domain name registrations.

## Full Stack Developer at Mashejerowa construction, Thika

April 2018 — June 2019

- Performed analysis, design, coding, testing, implementation, and maintenance of software solutions.
- Provided software development support for prototyping of analytical tools, data management, and user interfaces.
- Designed and implemented core architecture and capabilities for software from prototype to operational applications.
- Evaluated new software products and technologies and provided recommendations to enhance existing systems or build new ones.
- Optimized controls by developing targeted algorithms.
- Closed security loopholes by debugging and patching software.

## Junior Software Engineer Intern at Kenya National Museum of Kenya, Nairobi

June 2019 — April 2020

- Composed documentation to improve knowledge sharing and onboarding process.
- Developed systems with stringent controls for scalability and security.
- Resolved issues related to cloud computing, API design, and front-end UI engineering.
- Collaborated with data processing personnel and project managers to gather data processing limitations or capabilities.
- Supported customer technology needs with software system maintenance and recommendations.

## EDUCATION

### Diploma In Information Communication Technology, P.C. Kinyanjui Technical Training Institute, Nairobi

September 2017 — September 2020

[P.C. Kinyanjui Technical Training Institute], [Computer Study]: [Diploma]

## COURSES

### MERN Stack Front To Back, Udemy

February 2020 — March 2020

## PROJECTS

### Uber Clone - Senior Full Stack JavaScript Developer, Nairobi

March 2021 — April 2021

- With react native front end paired with GraphQL backend using AWS Amplify.
- By implementing Google maps, drawing routes on the map, and autocomplete features for location input.
- I used AWS Amplify which is an amazing combination of tools and services from AWS, that helps us build mobile and web applications faster for the backend.
- It offers pre-made authentication components and flows, database, API (REST and GraphQL), storage, and much more.

### Covid-19 Tracker - Senior Full Stack JavaScript Developer, Nairobi

July 2020 — August 2020

- with react.js and disease.shAPI
- Implementing react charts to visualize the data from the API
- Calculating the covid 19 cases into a circle which size will depend on the number
- Fully integrated with a dynamic filtering system for the recovered, death, and live cases for better user experience
- <https://lnkd.in/dEDHAjA> Link to the project

### Others, Nairobi

April 2020 — February 2021

## Others, Nairobi

April 2020 — February 2021

- **Netflix Clone** - Senior Full Stack JavaScript Developer,
- **Twitter Clone** - Senior Full Stack JavaScript Developer
- **Spotify Clone** - Senior Full Stack JavaScript Developer
- **Airbnb CLone** - Senior Full Stack JavaScript Developer,
- **Hulu Clone** - Senior Full Stack JavaScript Developer,
- **Facebook Clone** - Senior Full Stack JavaScript Developer,
- **Amazon Clone** - Senior Full Stack JavaScript Developer,
- **LinkedIn Clone** - Senior Full Stack JavaScript Developer,
- **Gmail Clone**- Senior Full Stack JavaScript Developer,
- **WhatsApp Clone** - Senior Full Stack JavaScript Developer,
- **Slack Clone** - Senior Full Stack JavaScript Developer,
- **Tinder Clone** - Senior Full Stack JavaScript Developer,
- **Zoom CLone** - Senior Full Stack JavaScript Developer,
- **Instagram Clone** - Senior Full Stack JavaScript Developer,
- **Discord clones**- Senior Full Stack JavaScript Developer
